

RAJAN VERMA

Full Stack Developer

rajanverma0879@gmail.com | +91 9956561803 | Uttar Pradesh, India - 225001 | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with 1+ years of professional software development experience building scalable, responsive, and production-ready web applications using React.js, Next.js, JavaScript (ES6+), Node.js, Express.js, PostgreSQL, and MongoDB. Experienced in Full-Stack Development, RESTful API Development, API Integration, Authentication, Authorization, State Management, Form Validation, Database Integration, Debugging, Performance Optimization, Cross-Platform Mobile Development, Docker, CI/CD, Git, GitHub, and Application Deployment.

PROFESSIONAL EXPERIENCE

Associate Software Development Engineer - 1

December 2025 - Present

Healthlignce (Akrabhi Softlabs Private Limited)

Remote

- **Contribute across 4 production applications** - 2 full-stack and 2 frontend-focused products - using React.js, Next.js, Node.js, PostgreSQL, and modern frontend technologies.
- **Shipped 50+ production screens** across web applications using React.js and Next.js, converting business requirements into reusable components and complete user workflows.
- **Integrate RESTful APIs across 2 full-stack products**, synchronizing client-side features with server-side services and PostgreSQL-backed data.
- **Engineer complex form workflows** using React Hook Form, Zod, and Zustand for schema-based validation, state management, and structured data handling.
- **Delivered 4 cross-platform Android applications** using Capacitor, integrating web-based products with native device capabilities and Android functionality.
- **Resolve product-level defects** across UI, application logic, and service communication while supporting testing and release validation.
- **Support CI/CD and testing deployments across 4 production applications** using Git, GitHub, and Docker, validating application builds in testing environments before release.

Software Developer Intern

August 2025 - December 2025

Clearcatnet

Lucknow, Uttar Pradesh, India

- **Led frontend delivery for the Learnees platform** using Next.js, transforming functional requirements into responsive, reusable, and production-ready user experiences.
- **Owned selected product features end-to-end**, handling frontend implementation, API integration, data flows, and selected backend functionality using Node.js and Firebase.
- **Collaborated across feature delivery, API integration, testing, and release validation**, coordinating client-side functionality with server-side systems throughout the product development lifecycle.
- **Strengthened application reliability** by diagnosing frontend, server-side, and data-flow issues and validating fixes through testing deployments.

SELECTED PRODUCT WORK

Baliyatra - Smart Event Navigation Platform

Next.js • TypeScript • Node.js • Express.js • PostgreSQL • Redis • Socket.IO • Capacitor • Leaflet

[Live Product](#)

- **Engineered offline-first navigation and real-time family safety** with Dijkstra-based pedestrian routing, turn-by-turn guidance, live location tracking, and **50-meter geofence alerts**.
- **Designed real-time and offline data workflows across 4 storage layers** - Redis, PostgreSQL, SQLite, and MinIO - enabling live GPS synchronization and downloadable offline map-data bundles.
- **Delivered the product across 2 platforms - Web PWA and Android** using Capacitor, integrating native geolocation, device orientation, haptic feedback, push notifications, and localization across **4 regional languages**.

Learnees - Coaching & Training Discovery Platform

Next.js • JavaScript • Node.js • Firebase • REST APIs

[Live Product](#)

- **Built and maintained 30+ user-facing pages** for a location-based platform serving **1,000+ users**, enabling students to discover online and offline coaching or training institutes by location, courses, ratings, and reviews.
- **Integrated 20+ REST APIs across core product workflows** and implemented selected backend features using Node.js and Firebase, including institute data, course listings, authentication, and an end-to-end blog publishing workflow.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C, C++

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Styled Components, ShadCN UI, GSAP, Leaflet

State & Forms: Redux Toolkit, Zustand, Context API, React Hook Form, Zod

Backend: Node.js, Express.js, REST APIs, Socket.IO

Databases & Storage: PostgreSQL, MongoDB, Firebase, Redis, SQLite, MinIO

Mobile: Capacitor, Android

DevOps & Tools: Docker, CI/CD, Git, GitHub

Authentication: JWT, RBAC

Professional Skills: Cross-functional Collaboration, Technical Communication, Time Management, Teamwork

EDUCATION

Bachelor of Technology in Information Technology

2021 - 2025

Babu Banarasi Das Northern India Institute of Technology

CGPA: 7.2

Lucknow, Uttar Pradesh, India

Intermediate (Class XII) - PCM

2021

Sri Sai Inter College

83.8%

Barabanki, Uttar Pradesh, India
